

City of Krugerville to Start Single Stream Recycling

The City of Krugerville has approved a new contract with its current solid waste and recycling service provider Progressive Waste Solutions of TX, Inc. (formerly IESI) and is implementing a new recycling program with our current service provider Progressive Waste Solutions. The new recycling program will begin on the week of **April 3rd, 2013**. Recycling services will be scheduled for one day per week on the same day as one of your trash service day and as currently scheduled.

Progressive Waste Solutions will provide each resident with one (1) Blue 65-gallon cart. The new recycling carts will be delivered before April 3rd, 2013. In an effort to better service you, please place your recycling carts at the curb no later than 7:00 a.m.

Try to place all of your recyclables into your cart without overfilling to minimize spillage. We believe that this not only looks better than an open container, but it also insures that your container does not fill with rain water or scatter litter on windy days.

Single-Stream Recycling comes to Krugerville

The new recycling program is called “Single-Stream” recycling. It’s the future for responsible resource conservation and an important step toward meeting the City of Krugerville’s goal to being a Greener community. Single-stream recycling makes it almost as easy to use the recycling cart as it is to use the trash cart, so there’s no excuse for not recycling. It also creates a significant opportunity for the community to get a lot closer to their waste reduction goals through a revolutionary new system called Single Stream Recycling.

Customers may now recycle the following materials:

PLASTICS #1 - #5 & #7 - Water, soda and juice bottles, milk jugs, shampoo, conditioner & liquid soap bottles, detergent bottles, bleach and all-purpose cleaner bottles, margarine tubs, yogurt containers, *empty* medicine bottles, Clean frozen food trays, plastic lids from bottles, plastic takeout containers, plastic produce containers, plastic disposable plates, cups and utensils (check for recycling number).

PAPER - Newspapers and Inserts, magazines, catalogs, junk mail and envelopes (No product samples; envelope labels and windows are OK), boxboard (thin cardboard like cereal boxes, shoe boxes, soda cartons, etc.), holiday and greeting cards, phone books, home office paper (sticky notes, manila envelopes and file folders and paper ream wrappers are OK), paper bags, except gift bags.

METALS - Aluminum cans, such as soda cans, tin & steel cans, such as soup cans and tuna cans, *empty* aerosol cans, metal lids from glass jars.

GLASS - Clear, green and amber glass. Put the glass containers in your recycling cart with all your recyclables. There is no need to remove labels. Metal lids from glass jars may also go in your recycling cart.

CORRUGATED CARDBOARD - Corrugated cardboard is thick and has a wavy middle layer. Moving and mailing boxes are usually made from corrugated cardboard.
